A Global Mantra for Metals

# About Us

Met Mantra Global Enterprise LLP is a leading exporter of industrial components, specializing in brass fittings, compression fittings, hydraulic fittings, adapters, and fasteners. Founded by Om Vijay Bhatt and Jigish Vijay Bhatt, the company is committed to quality, reliability, precision engineering, and consistently meeting global industry standards.

Based in Ulhasnagar, India, we deliver durable, high-performance products through strict quality-controlled manufacturing and sourcing processes. With a customer-first approach, competitive, and timely delivery, we focus on building long-term global partnerships, ensuring transparency, trust, and consistent excellence in every international business relationship.

## Our Mission

To design, manufacture, and deliver high-performance brass components that consistently meet and exceed global standards. We are committed to operational excellence, robust quality systems, and a customer-first approach; ensuring timely delivery, competitive value, and long-term business partnerships worldwide.

## Our Vision

To establish Met Mantra Global Enterprises LLP as a globally preferred partner in precision-engineered brass products, setting benchmarks in quality, reliability, and innovation across international markets.

## Core Values

### Uncompromising Quality

We adhere to stringent quality control systems and international standards, ensuring consistency, durability, and precision in every product.

### Ethical Business Practices

We uphold the highest standards of integrity, transparency, and accountability in all our dealings.

### Operational Excellence

We focus on efficiency, process optimization, and continuous improvement to deliver superior value and performance.

### Innovation & Technical Advancement

We invest in modern manufacturing technologies and product development to stay ahead in a competitive global landscape.

# Our Products

Brass Inserts for PPR/  
CPVC/UPVC Pipe Fittings

Brass Cable Glands

Brass Anchors

Brass Bolts

Brass Cable  
Glands Fittings

Brass Compression  
Fittings

Brass Electrical  
Components

Brass Flare Fittings

Brass Hose Fittings

Brass Hydraulic Adapters

Brass Inserts

**Brass LPG Gas Fittings**

**Brass Nuts**

**Brass Plumbing Fittings**

**Brass Push-On Fittings**

**Brass Rivets**

**Brass Sanitary Parts**

**Brass Screws**

**Brass Transition for Electrofusion**

**Brass Valves**

**Brass Washers**

**Brass Water Filter Parts**

# Advanced Machine technology

## CNC-BASED MACHINING

supported by CAD/CAM systems and precision tooling ensures high accuracy, tight tolerances, and consistent repeatability across batches.

## MATERIAL GRADES OFFERED

- Free Cutting Brass – C36000 / IS 319 Type I
- Cartridge Brass – C26000
- Naval Brass – C46400
- Lead-Free Brass – RoHS compliant (on request)

## TOLERANCE & PRECISION

- Capable of maintaining close tolerances as per international requirements, ensuring interchangeability and reliability in critical applications.

## STANDARDS COMPLIANCE

- Manufactured in accordance with global standards including ASTM, DIN, BS, and ISO specifications.

## THREADING STANDARDS

- BSP / BSPT (British Standard Pipe)
- NPT / NPTF (National Pipe Thread)
- Metric Threads

## CUSTOMIZATION CAPABILITY

- Products can be developed as per customer drawings, samples, or technical specifications with flexibility in design and finish.

## QUALITY ASSURANCE

- Each component undergoes strict inspection to ensure dimensional accuracy, thread precision, and overall performance consistency.

# Manufacturing & Infrastructure

At Met Mantra Global Enterprises LLP, our infrastructure is built to support precision-driven and scalable manufacturing of high-quality brass components. Our facility is equipped with advanced machinery including CNC turning centers, VMC/CNC milling machines, automatic sliding head machines, drilling and tapping units, -

forging presses, and polishing and surface finishing equipment. This enables us to maintain high accuracy, consistency, and efficiency across all product categories. We are capable of handling low to high-volume production requirements with flexibility for both standard and customized components, ensuring optimized lead times and dependable supply.

## Our certifications
